## What to expect from the Financial Planning Process?

The right financial advice can protect your lifestyle and shape your future.

Before your Adviser provides you with financial planning advice, you will need to agree to the type and scope of advice to be provided, usually in the 'Fact Find' document or a service agreement. In order for your Adviser to provide you with personal advice, you need to provide them with detailed information about your current situation, needs, goals and objectives. If you choose not to provide your Adviser with this information, any advice they provide may not be appropriate to your needs.

### Initial Advice

The first time you receive personal advice and before you invest in a financial product, we will provide you with a Statement of Advice (SoA). It contains our strategy and product recommended solutions, the reasons for providing that advice, as well as information about risks, benefits, features and fees payable to help you make an informed decision about proceeding.

If your Adviser recommends a particular investment or insurance product to you, they will provide you with the relevant product brochures such as Product Disclosure Statements (PDS) and/or Investor Directed Portfolio Service (IDPS) guides. The PDS / IDPS will provide you with information to enable you to make an informed decision about your investment or whether to acquire a financial product, including information about the key benefits, risks and costs associated with the product. We encourage you to read these documents carefully and to ask your Adviser any questions that you might have.

### Further Advice

If you need subsequent advice and your circumstances have not changed significantly, further personal advice provided to you will be documented in a Record of Advice (RoA), provided that the basis of the further advice has not changed significantly from the initial advice or previous SoA. An SoA may be required for more significant changes. Copies of each SoA and RoA will be retained on your client file. You may request a copy of these documents from us using the contact details above.

### Your instructions

If you decide to act on the advice, you will need to provide your consent to proceed. This usually means completing a document called an 'Authority to Proceed' to confirm that you understand the advice you have received and the benefits, risks and costs associated with the products or services recommended to you. Where personal advice is not provided, we can also act on your verbal or written instructions, we will confirm this in a document.

## How we charge

All advice fees will be discussed and agreed between you and your Adviser prior to providing and implementing their services. Any remuneration paid to Investorplan, or your Adviser for advice, or by a product provider that relates to an individual financial product recommendation will be disclosed in the advice document provided to you. Unless otherwise noted, all fees are inclusive of GST.

A fee disclosure statement will be given to you each year if you choose to enter into an ongoing fee arrangement with your Adviser. It will outline the Adviser service fees paid and the services you received in the preceding 12 months.

The level of fees will depend on complexity of the advice required and will always be agreed with you prior to proceeding.

### Insurance Products

Insurers will pay initial commission between 0% and 66% and ongoing commission between 0% and 33%.

These payments are made by the product providers in the form of initial and/or ongoing commissions and are not an additional cost to you. Generally, insurance product providers pay commission.

The Life Insurance Framework (LIF) reforms came into effect on 1 January 2018. If you submitted an application after the 1st of January 2018 and your policy is cancelled, lapses or if you reduce your cover to lower your premiums, then the insurance provider may claw back 100% of the commissions paid to your Adviser in the first year or 60% in the second year. From the third year on, no commissions paid to your Adviser will be clawed back by the insurance provider. Any commissions clawed back by the insurer will be payable by insured client to Investorplan Pty Ltd within 30 days of receiving an invoice from Investorplan Pty Ltd.

### Commissions

These payments are made by the product providers in the form of initial and / or ongoing commissions and are not an additional cost to you. Generally, insurance product providers pay commission.

### General advice, execution only instructions or other services

If your Adviser provides you with a further advice document such as an SOA or ROA (which may arise depending on the complexity of the advice and the services provided), other fees may be payable. Any such fees and method of payment will be agreed in writing between you and your Adviser and may include up-front, ad hoc, execution only service fees, implementation of ongoing fees, or a combination of the above.

Fees may be able to be deducted from your product or invoiced directly to you or a combination of methods.

## Other remuneration

For existing clients already in an established commission arrangement, we may receive commission on investment products or margin lending products held. For investment products the relevant product issuer will pay initial commission between 0% and 5.5% and ongoing commission between 0% and 1.1% of the value of your investments for as long as you hold the product. For margin loans the relevant product issuer will pay an ongoing commission between 0% and 0.88% of the outstanding loan balance. Commissions are paid to us by the product provider and are not an additional cost to you.

### Life insurance products

Your Adviser may receive an up-front commission of up to 70% (exclusive of GST) of your first annual insurance premium for arranging your life insurance cover. From 1 January 2020, this amount is reduced to 60%. In addition, your Adviser may receive, after the first year, an ongoing annual 'trail' commission of up to 20% (exclusive of GST) of your annual insurance premium. Where commissions are the same for initial upfront and ongoing annual commission (i.e. level) the above commission caps do not apply. These level commission payments are made by the relevant product issuers and are not an additional cost to you. Advisers may also charge initial and ongoing Adviser services fees. Insurers can deduct premiums directly from you or from your superannuation account balance.

### What other payments and benefits may Investorplan and your Adviser receive?

Sometimes in the process of providing advice and other financial services, Investorplan or your Adviser may receive benefits from product providers such as sponsorship of events, subsidised educational conferences, rebates, bonuses, preferred product rates or other fees.

### Non-monetary benefits

These benefits are discretionary in nature and relate to future events. It is therefore not possible to provide an estimated dollar value on these benefits. Advisers may receive benefits from Investorplan or its related companies or product providers such as:

- Educational conferences and seminars
- IT software or support
- Non-monetary benefits such as business lunches, tickets to sporting and cultural events, or other minor benefits. These benefits cannot be accepted on a frequent or regular basis or over the value of \$300.

Each Adviser must keep a register of benefits received. If you would like to see a copy of our registers, you can contact us or your Adviser directly.

## Any Interests, Associations and Other Relationships

Your Adviser may also hold shares in **Investorplan** through an arrangement or their associated companies and trusts may receive dividends in respect of these shares.
